If you need website content in a hurry, or have an extended period of time where you need content for various endeavors, do not hesitate to send us an email and inquire about our bulk rates. We have a time tested solution of offering unique content at affordable prices in bulk sizes. From 1000 articles monthly to 12,000 yearly, we can supply your content needs. Many of our corporate and marketing clients have been with us from the start and continue to use Article Authors because they know they can trust the content source to deliver what they need for themselves, or for their clients.

We have produced content for many offline and online entities - airlines, real estate firms, building contractors, brick and mortar stores, and online stores. These companies and individuals understood that the very nature of their business included staying ahead in the online content race, and needed some help to stay in the game. As research and SEO writers, our authors are held to the highest levels of content production to ensure that our good name is used as a referral name among our client base. Good content production isn't simply something that should be aspired to, but instead, should be mandated for each and every order, no matter if it's for 1 article or 1000 articles.

In terms of pricing and contracts, we are more than willing to setup a payment schedule to handle specific bulk content ordering over a period of time. Due to the amount of monies involved with bulk ordering, some of our plans have incorporated a 3 way payment plan, and a 2 way payment plan. The "3 way" payment plan incorporates an upfront fee, a middle timeframe payment, and final payment on delivery. The "2 way" is simply a half up front, half on delivery plan. As you can see, we are more than flexible to adjust to your needs.
